Letter of Support

The Green Aviation and Logistics Group - Middle East

As our world continues to turn, there are more and more compelling reasons for us to focus on the protection of our environment – not only through our day to day lives but also in the way we conduct our business.

There is no doubt, that efforts are being made to draw the attention of the public to the cause of the environment - but there is a lot left to be done.

We are only just beginning.

FDI Dubai, Dubai's official Foreign Investment Office, is an agency of the Department of Economic Development. Its role is to promote investment opportunities in Dubai, support international investors to establish a presence here whilst taking advantage of Dubai's strategic location to access the MENASA region.

The transport and logistics sector is a key focus for FDI Dubai and with this comes a responsibility to promote sustainable development and green technologies for this sector.

With this in mind, I am proud to offer, on behalf of FDI Dubai, my support to The Green Aviation and Logistics Group Middle East established here in Dubai. Through awareness raising activities led by leaders in the field, I am confident that group will make every effort to enhance and promote a green logistics sector ultimately benefiting us all.

We must all join hands and work together to preserve our environment and there is no better time to start doing this as now.

With best wishes,

Sami Al Qamzi,
Director General
Department of Economic Development
Government of Dubai
